No. 1. Fracture Bed used for simple fractures of the upper third of the Thigh; for all compound fractures of the Thigh, and for diseased Hip Joints. No. 2. The fracture apparatus used for simple fractures of the middle and lower thirds of the Thigh; simple and compound fractures of the Leg, and simple and compound dislocation of the Ankle. No. 3. Fracture apparatus used for simple fractures of the Leg; and simple dislocation of the Ankle; for diseased Ankle joints and rupture of the tendo Achillis. No. 4. Splints used with No. 2 when employed for fractures of the Thigh. No. 5. Splints used with Nos. 2 and 3, when employed for fractures of the Leg, or dislocation of the Ankle. No. 6. Fractured fore Arm apparatus. No. 7. Fracture upper Arm apparatus. No. 8. Stiff Knee joint apparatus; used also in cases of diseased Knee joint. No. 9. Stiff Elbow joint apparatus; used also in cases of diseased Elbow joint. No. 10. Fractured Knee-pan apparatus. No. 11. Fractured Olecranon apparatus. No. 12. Pointed Toe apparatus.

N.B. Gentlemen sending Orders from the Country for the Apparatuses marked Nos. 2 and 3, will please to state how many sets of Splints they wish to have with them. There are two sizes of Splints No. 4 used with No. 2; and two sizes of the Splints No. 5 for each Leg employed with Nos. 2 and 3. No. 2 is kept of three different sizes: one for children, one for women and short men, and one for men from five feet and upwards. All the other Apparatuses are kept of a size which answers very well for any adult. If any of them are wanted for children under twelve years, smaller sizes are required. The Apparatus marked No. 3, may be had with the Leg Splints used with it of a black or brown colour

For the modes of applying the Apparatuses, see Mr. Amesbury's Syllabus.

** All Orders will be attended to with the greatest punctuality. All Letter must be Post-Paid.
